<b>Institution</b>	Consiglio Nazionale delle Ricerche
<b>Short name</b>	CNR
<b>Name of representative</b>	Dr. Daniela Fontani
<b>Contact details</b>	daniela.fontani@ino.it +39-055-2308231

### Mission Statement:

CNR is the largest public research institution directly depending from the Italian Ministry of Education, University and Research (MIUR) performing multidisciplinary activities. Since 1997 the CNR-INO research unit is working in the solar energy field.

## SHIP Competences:

- Optical tests on solar components
- Characterization of the optical properties of solar components
- Optical design and lighting simulation

## SHIP Research Infrastructure:

- Laboratory to test solar components
- Spectrophotometers

## Participation in INSHIP:

**Work package involvement:**

WP 8

**Person months (national + EC):**

4

## **Objectives:**

- CNR will contribute to the work of WP8, exploiting all the experience acquired during the participation of several national and European research projects in the solar field.
